

# Fax Pulse™

Business Intelligence with Monitoring & Alerting

- Essential Add-on for RightFax
- Secure Reporting Dashboards
- Monitoring with Automation

## RightFax Analytics

Trend Fax Volume and Channel Usage Metrics to track current system state and accommodate growth.

Measure RightFax System Health, Top Users, System Throughput and Peak Transmission Periods.

Simplify troubleshooting tasks by sorting, filtering and drilling down on important fax details through a simple web-based dashboard.

## Monitoring & Alerting

Configure the FaxPulse Monitoring Service to track over 50 different RightFax metrics with customizable alert thresholds.

Identify issues and solve problems before they impact the organization, preempting potential trouble tickets.

Keep a watchful eye on the entire RightFax environment in one screen with real-time visual cues and automated email alerts.
